2000 Index
IEEE Transactions on Education
Vol. 43

This index covers all technical items - papers, correspondence, reviews, etc. that appeared in this periodical during 2000, and items from previous years that were commented upon or corrected in 2000. In the case of magazines, departments and other items may be also covered if they have been judged to have archival value.

The Author Index contains the primary entry for each item, listed under the first author's name. The primary entry includes the coauthors' names, the title of the paper or other item, and its location, specified by the publication abbreviation, year, month, and inclusive pagination. The Subject Index contains entries describing the item under all appropriate subject headings, plus the first author's name, the publication abbreviation, month, and year, and inclusive pages. Subject cross-references are included to assist in finding items of interest. Note that the item title is found only under the primary entry in the Author Index.

curriculum assess. in undergraduate elec. engng. course. *Finelli, C.J., + , T-E May 00* 137-142
Networks (circuits); cf. Active networks; Amplifiers; Passive networks
Network synthesis
Remes multiple exchange algm. for lin.-phase FIR filters with general amplitude specs. *Nordebo, S., + , T-E Nov 00* 460-463
Network synthesis; cf. Integrated circuit design
Number theory
computer sci. course, Fibonacci nos., binomial coeffs. *Stojmenovic, I., T-E Aug 00* 273-276

O

Object-oriented languages; cf. C++ language
Optical constants; cf. Absorption coefficients; Refractive index
Optoelectronic devices; cf. Photodetectors

P

Partial differential equations; cf. Maxwell equations
Pascal
assessing utility of interactive electronic book for learning Pascal programming language. *Aedo, I., + , T-E Nov 00* 403-413
experience using project-based approach in introductory programming course. *Davenport, D., T-E Nov 00* 443-448
Passive networks
microwave pass. planar ccts., short-term project, educational approach. *Huynen, I., + , T-E May 00* 227-236
Photodetectors
APD, excess noise factor. *Woods, R.C., T-E Aug 00* 321-323
Photodiodes; cf. Avalanche photodiodes
Poles and zeros
sampled data systs., transient-perform. anals., z-plane criterion. *Lewis, P.H., T-E Aug 00* 324-329
Power electronics
indust.-university collaboration in power electronics/drives education. *Blaaberg, F., + , T-E Feb 00* 52-57
Power semiconductor switches; cf. Thyristors
Printed circuit design; cf. Printed circuit layout
Printed circuit layout
PCB fab. proc. for course projects. *Branson, J., + , T-E Aug 00* 257-261
Printed circuit manufacture
